Colleagues,

This medical directive adds countries in addition to China to our screening tool for Novel Coronavirus / COVID-19.

The CDC has revised the criteria for evaluating individuals who have a history of travel to include additional affected geographic areas.

Individuals who identify with fever and cough and have within 14 days of the onset of such symptoms had a history of travel within the following affected geographic areas with widespread or sustained community transmission:

- China
- Iran
- Italy
- Japan
- South Korea

Additional geographic areas may be added as the outbreak continues.

Questions can be sent to EMScogs@austintexas.gov

Thank you for all that you do,

William J. Leggio, EdD, NRP
 Clinical Operations, Practices and Standards Coordinator
 Office of the Medical Director
 Austin/Travis County EMS System

Mark E. Escott, MD, MPH, FACEP, FAEMS, NRP
