

SAN FRANCISCO EMERGENCY MEDICAL SERVICES AGENCY

Policy Reference No.: 4001
Effective: February 3, 2020
Supersedes: December 5, 2018

VEHICLE EQUIPMENT & SUPPLY LIST

I. PURPOSE

To establish consistent minimum equipment and supplies standards for Basic Life Support, Advanced Life Support vehicles and Mobile Assistance Teams (MAT) in the City and County of San Francisco.

II. POLICY

- A. This policy does not supersede the California Vehicle Code or the California Code of Regulations requirements for ambulance equipment.
- B. All Medical Response Vehicles shall be inspected by the EMS Agency to receive a permit to operate in the City and County of San Francisco. Inspections shall be done at the time of issuing the initial permit. For subsequent permits, Ambulance Providers shall inspect each Medical Response Vehicles on an annual basis and submit an affidavit to the EMS Agency. The EMS Agency will randomly inspect Medical Response Vehicles for compliance throughout the annual permit cycle. Any Medical Response Vehicle not in compliance with the equipment standards policy shall be taken out of service until such compliance is met. Medical Response Vehicles must demonstrate compliance to the equipment standards in this policy to qualify for a permit. Specialty Vehicles will not be permitted but can be inspected for compliance by EMS Agency.
- C. All Medical Response Vehicles and MATs shall minimally stock the equipment and supplies as listed in the attachments to this policy. **Actual quantities stocked should take into consideration the amounts typically used in a shift(s) plus additional quantities to maintain adequate supplies for periods of high demand or re-stocking delays.**
- D. Medical Response Vehicles and MATs shall not stock any medications, or medical devices or equipment that is not approved by the EMS Agency Medical Director.
- E. Each ALS and BLS first response vehicle, ambulance and supervisory units, shall have an 800MHz radio in compliance with *Policy 3010 EMS Communications Equipment and Procedures* and have the ability to communicate with a Base Hospital Physician.

- F. Each permitted ambulance company provider shall have a “par-list” check out sheet (or electronic equivalent) for every Medical Response Vehicle that identifies the minimum supply and equipment stock required on each unit. Ambulance companies shall ensure each unit is inspected prior to deployment or at least once every 24-hour period to verify that the minimum level of equipment is present on the vehicle. An ambulance provider company employees shall attest to the completed inspection or electronic equivalent, by signing the par-list checkout sheet. The ambulance provider company shall maintain this record for six months.

III. DEFINITIONS

- A. Medical Response Vehicles** – Generic term for any Advanced Life Support (ALS) or Basic Life Support (BLS) Response vehicle that responds to a request for medical service. This includes, but is not limited to:
- BLS transport/non-transport unit (First Response)
 - ALS transport/non-transport unit (First Response)
- B. Supervisory Vehicle (QRV)** - Response vehicle, usually staffed by a Paramedic Supervisor providing field supervision and coordination for EMS field crews. This vehicle does not have the ability to transport patients.
- C. Quick-Response Vehicle (QRV)** - Response vehicle, usually staffed by a paramedic, that provide supplemental field response and patient care. This vehicle does not have the ability to transport patients.
- D. MAT (ALS or BLS)** - Generic term for mobile (roving) non-ambulance-based EMTs and/or Paramedics deployed at special events. MAT must be able to provide, AT MINIMUM, First Aid Care at an EMT level, and must have communication capability, by radio, cell phone, or other medium. Each MAT must carry at least one (1) Automatic External Defibrillator (AED) or cardiac monitor at all times. At least one (1) full MCI Kit, as referenced on Page 18-19, must be present at the event.
- Bike Team, Gator/Cart Team, Water-Based Team, etc.
