- \* EMERGENCY WMRMCC COVID-19 14-04 protocol revised and an effective date 11-16-2020) – found in the KCEMS Protocol folder, section 14
  - (page 4) NRB’s are removed as an aerosolizing-generating procedure
    - If possible a surgical mask should be placed over the NRB to reduce exhalation particles from being dispersed into the environment.
  - (page 7) There was a second extension granted for participating WMRMCC MCA’s for required certifications.
    - References to Executive Orders were removed.
    - CPR extension was removed because it is outside of the local MCA’s control. It is a State of Michigan requirement.
    - Other required certifications were extended to June 30<sup>th</sup>, 2020.
- \* EMERGENCY 14-02 Staffing During COVID Pandemic 11-6-2020 was adopted with an effective date of 11-16-2020 – found in the KCEMS Protocol folder, section 14
  - This protocol provides staffing flexibility for EMS agencies during the COVID Pandemic response.
- \* EMERGENCY 8-3 WMRMCC EMERGENCY Destination & Diversion Protocol was adopted with an effective date of 11-16-2020 – found in the KCEMS Protocol folder, section 8

- (page 3) Emergency language was added back to the protocol to allow for MCA's to determine destination and diversion status when necessary after it was inadvertently deleted.
- (page 9). Metro Health's Obstetric patients status was changed to accept patients over the 35 weeks. Patients less than 35 weeks with obstetrics should be diverted to another facility.
