Colleagues,

This Medical Directive at 0700 on 05 May 2021 rescinds the use of MPDS Protocol 36 that was previously implemented (MD 20-10) in response to COVID-19. This is in response to the demobilization of C3L.

C4 remains a resource for on-scene crews.

In keeping with best practices, dispatch will continue managing cardiac arrest patients and providing pre-arrival instructions using the "Compressions Only" pathway in MPDS regardless of MOI.

Thank you for all that you do,

Mark E. Escott, MD, MPH, FACEP, FAEMS, NRP  
EMS System Medical Director  
Office of the Chief Medical Officer  
City of Austin/Travis County  
ESV# 20210504939a

William J. Leggio, EdD, NRP  
Clinical Operations, Practices, and Standards Coordinator  
Office of the Chief Medical Officer  
Austin/Travis County EMS System
