

# Transport Drugs

**Designation of Condition:** For EMT-Intermediate and Paramedic.

Drugs allowed for monitoring during inter-facility transport (initiated and administered by the sending facility with the dosing parameters and requiring an infusion pump when given by continuous infusion unless otherwise specified); the infusion may be terminated by the Paramedic if appropriate, but if further adjustments are anticipated, appropriate hospital personnel should accompany the patient, or a critical care transport should be utilized.

Follow this link to the NM EMS Bureau website for information on which drugs are allowable per the state scope of practice:
