

# MD at Scene

Card or note to be presented to MD at scene, which reads:

An Emergency Medical Services System with comprehensive written guidelines has been established and is monitored by the Albuquerque-Bernalillo County Medical Control Board. By showing proof that you are a licensed medical physician, you may take responsibility for the patient's care if you accept full responsibility for patient management and the issuing of orders conforming to the established protocols, attending the patient to the hospital, and signing the EMS patient report form. If the paramedic believes there is a problem with patient care, they are instructed to contact an Emergency Physician ([MCEP](#)) at a local emergency department via radio.
