

# TABLE OF CONTENTS

<b>Introduction and Safety</b> .....	<b>1</b>
Intended Device Use .....	1
Related Documents .....	1
Regulatory Information .....	1
Contacting SIGMA Technical Support .....	1
Conventions .....	2
Summary of Warnings and Cautions .....	2
<b>System Components</b> .....	<b>11</b>
Spectrum Pump Illustrations .....	12
Hardware Labeling .....	13
<b>Battery Compatibility</b> .....	<b>14</b>
<b>Setting Up the Pump</b> .....	<b>15</b>
Unpack the Pump .....	15
AC Power Adaptor .....	16
Cleaning the Power Adaptor .....	16
Connecting the Power Adaptor .....	16
Removing the Power Adaptor .....	17
Charging the Battery .....	17
Configuring User Options .....	18
User Options .....	18
<b>Operational Overview</b> .....	<b>21</b>
Starting a New Infusion Using the Dose Error Reduction System (DERS) .....	24
Starting a New Infusion using the BASIC Mode .....	25
Secondary Infusions .....	26
<b>Preparing the Pump and IV Sets</b> .....	<b>27</b>
Loading an IV Set .....	28
Unloading an IV Set .....	30
Preparing the Pump for a Secondary Infusion .....	30
<b>Programming the Pump</b> .....	<b>31</b>
Infusion Programming Modes: .....	32
Keys Used to Program and Operate the Pump .....	33
Activating a Drug Library on a Pump with a Wireless Module .....	35
Programming the Pump Using the Dose Error Reduction System .....	36

Programming the Pump Using the BASIC Mode	.40
Setting up a Secondary Infusion	.43
Clearing the Secondary Mode While Returning to the Primary Infusion	.48
Secondary Callback – Assigned to a Secondary Drug in the Drug Library	.48
Programming a Loading Dose	.51
Programming a Bolus	.52
Multi-Step Programming	.52
Cyclic TPN Mode	.54
Titration	.55
Delayed Run	.58
Weight Confirmation	.58
<b>Pump Operation</b>	<b>.59</b>
Operating Tips	.59
Placing the Pump in STANDBY (Hold)	.60
Operating the Keypad Lock	.61
<b>Alarms</b>	<b>.62</b>
Silencing an Alarm	.63
Clearing an Alarm	.63
Alarm Messages	.63
Preventing Nuisance Alarms	.67
Managing Bolus before Occlusion (Downstream) Release	.67
Battery Warning Levels	.67
<b>Cleaning and Storage</b>	<b>.70</b>
Compatible Cleaners	.70
Cleaning the Pump	.71
<b>Compatible IV Sets</b>	<b>.72</b>
SIGMA Nitroglycerin/Lipid Sets	.72
SIGMA Y-Type Blood Sets	.72
Compatible Baxter IV Sets	.73
Compatible Baxter IV Sets – WARNINGS	.77
Compatible Hospira IV Sets	.79
Compatible Hospira IV Sets – WARNINGS	.81

<b>Accessories</b> .....	<b>83</b>
Tandem Carrier .....	83
Multi-Pole .....	84
AC Power Adaptor Protector .....	84
Double Rotating Pole Clamp Assembly .....	85
<b>APPENDIX A - Specifications</b> .....	<b>86</b>
Master Drug Library (MDL) Editor .....	86
Drug Library Transfer .....	86
Standard Gravity IV Sets .....	86
Standards .....	86
<b>APPENDIX B - Flow Rate Accuracy</b> .....	<b>92</b>
Effect of Fluid Container Height .....	92
Effect of Back Pressure .....	92
Flow Profile .....	92
<b>APPENDIX C - Bolus Accuracy</b> .....	<b>101</b>
<b>APPENDIX D - Downstream Occlusion</b> .....	<b>102</b>
Time to Occlusion .....	102
Bolus Volume .....	102
<b>APPENDIX E - Electromagnetic Compatibility</b> .....	<b>103</b>
Emissions .....	103
Immunity – ESD, transient/burst, voltage disparity, magnetic .....	104
Immunity – Conducted and Radiated .....	106
Immunity – Separation Distances .....	108
<b>APPENDIX F - Low / Very Low Battery Tutorial</b> .....	<b>109</b>
Low Battery Tutorial .....	109
Very Low Battery Tutorial .....	110
<b>APPENDIX G - Icons</b> .....	<b>111</b>
Power Icons .....	111
Wireless Icons .....	113
General Icons .....	114
